WORK EXPERIENCE

Private energy sector client
Feb 2018 – now
UI/UX front-end developer
Project: SaaS platform providing petrochemical data and analytics

As a member of the UI/UX department, I designed and implemented the front-end part of 5 web and mobile applications inside the company.

My achievements:
- Implemented responsive designs to ensure optimal display on various devices.
- Developed user interfaces using Vanilla JS and framworks such as Angular 8, React
- Actively contributed to the company-wide custom UI library
- Created wireframes and mocks for applications.
- Worked closely with the back-end team to provide front-end communication with API.
- Improved UI/UX based on user feedback.

Additionally, I should add that I have experience as a teacher of UI development in an internal software academy, where I was responsible for preparing and delivering engaging lessons to students on various aspects of UI/UX design and front-end development. Aside from teaching, I also mentored junior developers, organized their tasks, and performed code reviews.

TPF Ukraine
Jun 2017 – Feb 2018
front-end developer/project manager
Project: Mobile app for residents for managing needs of members of residential area.

My achievements:
- Formed the project's system design and technical stack.
- Prototyped pieces of the project and discussed them with the product owner and the marketing team.
- Brainstormed the UI/UX with the design team.
- Set up the scrum workflow for the team. Managed tasks and provided estimates.
- Built the front-end part of the app using Apache Cordova.
- Published the app on the Play Market.
- Performed code reviews.
- Interviewed new developers for the team.

WebMUSE
Feb 2014 – Jun 2017
UI developer/Wordpress developer
Project: e-Commerce projects

I was able to deliver websites of different difficulty by participating in almost every step of development. This included meeting with clients and prototyping their ideas, creating designs from scratch, developing custom WordPress themes and integrating them into the CMS, as well as implementing responsive web design and cross-browser development with IE8+ support. I also provided further maintenance for the projects and trained clients on how to add content to their sites. In addition, I configured and supported an FTP server.

EDUCATION

Galician Academy
2005 – 2010
Master's degree in software engineering

Ukraine Gestalt Institute
2019 – 2025
Gestalt therapy: theory and practice

PROFESSIONAL SKILLS

• HTML5
• CSS3, SCSS, LESS
• JavaScript
• TypeScript
